*** DISCLAIMER

1. Dewormer – This dewormer may not treat all intestinal parasites that your animal may be infected with; please consult our staff about our fecal parasite screening.
2. It is recommended that all adult dogs have a heartworm and lyme disease test yearly, please consult our staff about scheduling a test
3. Lyme vaccine may be a highly recommended vaccine for your pet; please consult our staff for further questions

***VACCINE REACTION

- **Facial swelling, difficulty breathing, hives, itchy, vomiting, collapse** – PLEASE CALL THE CLINIC immediately; if the clinic is close, please call Glenwood Pet Hospital at (814) 864-3019. All medical expenses incurred outside of the NWPA Affordable Pet Wellness Clinic will not be reimbursed.
- Lethargy, soreness at the injection sites and inappetence are fairly common and are not a medical emergency
